College Sign/Campus Approach/Writing Center Stills

1.

North Seattle Community College, where learning begins with students.

Not just in the classroom, but in the classroom support services our college has always valued.

One shining example is North's Loft Writing Center Plus.

2.

Located in the heart of campus, on the second floor of the Library, The Loft is tucked away among the books, just where you'd expect to find it.

3.

A multi-media language lab, The Loft offers a variety of instructional support, from self-study computer programs to its richest asset, a staff of experienced, knowledgeable tutors.

Loft services are available, free of charge, to all enrolled North Seattle Community College students with a current student ID card.

Tutoring Session

4.

Students working one-to-one with tutors can expect an experience that is engaging, challenging, and above all collaborative.

5.

Students should bring to these sessions a description of their classroom assignment, a willingness to think critically, and most importantly the courage to practice new skills and make a few mistakes.

6.

Loft tutors are friendly, supportive coaches who will make this experience a rewarding one.
